

Night Rating

Visualize the sun setting on the horizon while you are flying. Get an exquisite and unparalleled view of the stars — or the city — in the night sky, from your cockpit. With your night rating you will be able to chase the sun and enjoy flying with no time restrictions. Flying at night in the calm nighttime air is truly a unique experience!

This rating requires a minimum of 20 hours flight time. This consists of at least 5 hours dual night instruction (of which 2 hours is cross country) and 5 hours of solo night time. You must also complete a total of 10 hours of dual instrument instruction. In most cases, five of those ten hours have been acquired from your private pilot training.

Flight instruction is given in a Cessna 152, Cessna 172P or on one of our newer Cessna 172R models. Training costs reflect Transport Canada minimum times and the program follows Canadian Aviation Regulation guidelines. There are no membership fees at Montair.
