

VFR on Top Rating

A VFR on Top Rating entitles you to enjoy a stunning and unparalleled vista when you fly above a solid layer of cloud in visual conditions. This is provided your departure and destination airports have weather conditions that meet the requirement in the Canadian Aviation Regulations. The rating requires a minimum of 15 hours of dual training of which a maximum may be 5 hours instrument/ground (simulator) time. A private pilot license or higher is a prerequisite for a VFR on Top Rating. Students who obtain a Commercial Pilot Licence are automatically entitled to exercise the privilege of this rating.

Flight instruction is given in a Cessna 152, Cessna 172P or on one of our newer Cessna 172R models. One of our staff or instructors will be happy to give you more details on the flight training.

Training costs reflect Transport Canada minimum times and the program follows Canadian Aviation Regulation guidelines. There are no membership fees at Montair.
